PC Cart 20

PRODUCT CODE:

PC_CART_20

CATEGORY:

MOBILE STORAGE

PRODUCT DESCRIPTION

MODULAR SAFE STORAGE

Perfect solution for businesses, schools, libraries, administrations... In other words, anywhere where there is a need for secure mobile storage that allows you to charge your laptops.

It gives the possibility to charge up to 20 laptops from 15.6" to 17", or 30 laptops from 10" to 13".

PRODUCT APPLICATION

The PC Cart 20 provides secure, mobile storage and charging for up to 20 laptops (15.6" to 17") or 30 smaller laptops (10" to 13"). Its customizable design includes removable shelves, a rubber top surface, and front and rear access doors with locks. The integrated multi-socket charging ensures maximum efficiency.

KEY FEATURES

- Ability to load laptops up to 17"
- 10 removable shelves allow you to arrange the interior of the cart as you wish, with the possibility of providing wider spacing to add other peripherals (printer, video projector).
- Integrated charging system with several multi-sockets.
- Rubber protection on the top surface.
- Storage space is provided at the back with a universal system for fixing computer chargers with resistant elastic bands.
- 2 doors for access to computers at the front of the cart with a three-point lock, and 2 doors at the back with a lock to access the chargers.
- 4 casters, 2 of which with brakes.
